

Ireland's Future Hydrogen Economy Workshop
Tuesday 27th August
Room H1.49, O'Brien Centre for Science

Overview

This workshop is designed to bring together some of the leading thinkers in the area of Hydrogen development and research. The event is supported by Science Foundation Ireland (SFI) through the SFI Future Innovator Prize themed on Zero Emissions. The objective of the workshop is to hear from leading experts on the role that Hydrogen can play in our low carbon energy future and to identify areas of research that can contribute to the Zero Emissions agenda which could form the basis of a research project proposal.

Provisional Agenda

9:45 – 10:00	<i>Tea, Coffee, Refreshments</i>
